

DISPOSITIVO MANUALE PER MONACHELLE **MANUAL TOOL FOR HOOKS**

DISPOSITIVO MANUALE PER MONACHELLE

USO CONSIGLIATO

Si tratta di un'attrezzatura manuale semplice e affidabile, utile per produzioni di monachelle per orecchini da filo pieno.

CARATTERISTICHE

L'attrezzatura utilizza un filo di argento o di oro di diametro idoneo e, previa impostazione dei parametri di lavorazione, ne esegue automaticamente l'avanzamento e la successiva formatura, ottenendo l'elemento costitutivo dell'orecchino.

MANUAL TOOL FOR HOOKS

RECOMMENDED USE

This is a simple and manual tool, very reliable, useful for the production of tubes for "monachelle" for earring manufactured with solid wire.

CHARACTERISTICS

The equipment uses a silver or gold wire of suitable diameter and, following the setting of the processing parameters, automatically performs its feeding and subsequent forming, producing the component that constitutes the earring.
